Archaeologist

Born 3th November 2001

ABOUT ME

Archaeology student and MA researcher specializing in Landscape Archaeology, with a focus on human–environment interactions and archaeological landscapes. My research examines settlements and environmental change in the Sistan Plain, Iran, using archaeological, geomorphological, hydrological, and remote-sensing data.

My interests include archaeology, landscape studies, GIS, remote sensing, and spatial analysis. I also have experience in fieldwork, academic editing and publishing, and teaching archaeological software and remote-sensing methods.
